

We provide intelligence to operators identifying vulnerabilities or opportunities in trade, finance and transportation sectors to improve U.S. economic security.

WHAT YOU'LL DO

Our analysts examine key international activities and provide assessments and briefings on exploitation of trade programs, forced labor, evasion trends and foreign engagement opportunities. In addition to interfacing with our partners in the U.S. Intelligence Community (IC), our personnel also engage operators, agents and officers in:

- U.S. Customs and Border Protection
- Immigration and Customs Enforcement
- U.S. Coast Guard
- Law Enforcement Fusion Centers
- U.S. Department of Treasury

THE REASONS WE DO WHAT WE DO

The nation's economic power is based on the strength of its market, businesses and innovation capabilities. But as an integral part of the global economy, the U.S. can be negatively impacted by international policies and illicit activities. The Economic Security Mission Center (ESMC) analyzes threats and integrates information from across the DHS Intelligence Enterprise, the Intelligence Community, state and local law enforcement, and the private sector to inform policy makers and support operations that protect the U.S. economy.

ESMC provides actionable intelligence that:

- Impacts national trade policies and negotiations
- Informs federal, state and local law enforcement operations

BENEFITS

We believe your dedication to protecting the nation should be rewarded. That's why we're proud to offer:

- Flexible work schedules
- Recruiting incentives, including a student loan repayment program
- Federal health and life insurance, and retirement benefits
- Professional development opportunities

What is DHS?

The Department of Homeland Security (DHS) has a vital mission: to secure the nation from the many threats we face. This requires the dedication of more than 240,000 employees in jobs that range from aviation and border security to emergency response, from cybersecurity analyst to chemical facility inspector. Our duties are wide-ranging, and our goal is clear – keeping America safe. Below is a partial listing of DHS components.

Office of Intelligence and Analysis

“We help policy makers and operators counter threats before they reach our border, and facilitate legitimate trade and travel so our economy can grow.”

- I&A Analyst

How Does the Office of Intelligence and Analysis (I&A) fit in?

I&A's role is to collect, analyze and disseminate intelligence across DHS, the Intelligence Community, local and state government, law enforcement and the private sector to ensure homeland security.
